We have experience and expertise in all areas of film, television and video production across the industry. We are able to offer you this wealth of experience to create a truly individual and stylish feature that you will treasure forever. We have a particular passion and enthusiasm for romance and bringing it out through the smallest of details. Moments you won't even know that happened on the day will be captured and delivered in ways that will bring tears to your eyes and ear to ear smiles across your faces. Let us tell the story of your day in the most exquisite way.

Overview and Goals

There's so much that goes into a Wedding. The filming of your day is something you won't have to worry about one bit. We take all of that pressure away from you from our first meeting right up to the moment you receive your final version. We have a team of 3 whereby we meticulously plan all of the shot coverage in minute detail before the actual day. This leaves you knowing that all the key moments will be captured with multiple cameras. We have an infectious enthusiasm combined with total discretion and professionalism that enhances your wedding experience.

In terms of our goals, these are simple. To make you happy. To deliver a cinematic piece of work that enables you to watch your special day from a completely different view. To enjoy everyone else's reaction and experience of your wedding that you wouldn't have had a chance to notice.

Throughout the day, Luke and the team were fantastic. They made both my Husband and I feel really comfortable- we hardly noticed them! (That's a good thing!) After the wedding, we were totally bowled over by the speedy turn-around time for our wedding vid. We must have watched it over 100 times already!! It's gorgeous and we can't thank you enough!
